

AMENDMENTS TO THE SPECIFICATION:

Please replace paragraph [0116] with the following:

The second guide member 628 is preferably a clear piece of material for ease of design and ability to observe the disks 412 as it slides onto the spindle 660. It can be appreciated, however, that the second guide member ~~[[622]]~~ 628 can be round, semi-circular, configured like a horseshoe or any other suitable shape without departing from the present invention.
